

# How to Make a Heart Drawing

1. Draw 3 hearts that have lots of space between them. They may go off the page.

2. Choose about 6 or 7 colors for your color palette, and color the inside of the hearts.

3. Start making zig-zag outlines around the edge of each heart. Complete one ring on all.

4. Rotate colors and complete a second ring around each heart.

5. Rotate colors and complete a third ring around each heart.

6. When the rings start to touch, switch the pattern to making one large set of rings in the background. Continue until full.
